

KINDERGARTEN

— Sight Words —

SIGHT WORD GAMES

A little bit of practice each day goes a long way—consistency is the key. Practice kindergarten sight words daily if possible, but don't introduce too many at once. Younger children do best with four to eight sight words at a time. Here are some fun games to practice sight words!

Recorded Words

1. Download a free recording app on your phone. Record 10–12 sight words with 5–8 seconds between each word.
2. Lay 10–12 matching sight word flashcards on the table in random order.
3. Have the child play the recording, grabbing the right word when he or she hears it.

Read and Cover

1. Print the *Read and Cover* activity page from our free download packet.
2. Give the child red, orange, yellow, green, and blue blocks (or even colored candies).
3. Have them read aloud each sight word, then cover the word with the correct colored item, as found in the key.

Popcorn

1. Using yellow index cards or paper, write sight words and cut them in irregular shapes to look like popcorn.
2. Make a bowl of real popcorn.
3. Fill a small paper bag with the popcorn word cutouts and have the child say them, then place a piece of popcorn on each to eat when finished.

Swat It!

1. Lay the flashcards in a line.
2. Give the child a clean flyswatter.
3. Read a word and have the child swat that word.
4. Repeat for each of the words several times.

Spilled Sight Words

1. Put the sight word flashcards in a jar or box.
2. Have the child shake the words onto the table and read the words that land facing up.
3. Repeat several times.

Craft Stick Puzzle Activity

1. Gather some craft sticks.
2. Write the sight words on two sticks, so that half the word is on the top stick and the other half is below on the bottom stick.
3. Mix them up in a jar or bag or spread out on a table.
4. Have the child match the two parts of each sight word until all matches are complete.

Wipe It Off

1. Write the words on a whiteboard.
2. Say a word and have the child wipe it off. Or, have the child read any word on the board and wipe it off.
3. Repeat until all the words are wiped off.

Sight Word Parking Lot

1. Print the *Sight Word Parking Lot* sheet found in our free download packet.
2. Read off the sight words on the parking lot and have the child place a car on each word until the parking lot is full.

Simon Says with Sight Words

1. Lay the sight words out on the table.
2. Play Simon Says, but every action is to pick up a certain sight word.

Sights Words on the Steps

1. Lay out flashcards (or sight words written on sticky notes) on stairs in your home.
2. Have the child hop up the stairs, saying the word on each step before hopping to the next step.
