

SHOPPING GUIDE

AGE/LEVEL GUIDE

“What do I need to order for my child?” This is one of the most common questions parents have. Use this chart to help you navigate which products are needed and what is typically used for each age group. Understand that not every child will use the suggested level for his or her age. **We advise parents to administer our Language Arts and Math Placement Tests found at goodandbeautiful.com/placement before purchasing items, as these tests will give you a more detailed look at your child’s needs.**

PRESCHOOL & KINDERGARTEN PREP

(ages 3–5)

LANGUAGE ARTS: *Preschool or Kindergarten Prep*

MATH: A math course is not needed until your child is ready for *Math K*.

HANDWRITING: *Doodles & Pre-Writing for Littles Part 1 or Part 2* can be used at any point once a child shows an interest in handwriting.

SCIENCE: We suggest one of the following: *Science for Little Hearts and Hands*; or, if you are doing our science units with older children, young children can participate and learn much by observing.

HISTORY: Not needed at this level

TYPING: Not needed at this level

EXTRAS & ELECTIVES: *Butterflies & Beetles Flip Books; Insect & Spider Mazes; Poetry Parties for Littles; Creative Arts & Crafts Notebook; Bedtime Songs; Quiet Time Learning Songs; For Littles Mammals Bundle.*

KINDERGARTEN

(ages 4–6)

LANGUAGE ARTS: *Level K; My First Nature Reader*; My First Africa Reader*, Kindergarten Books Set**

MATH: *Math K*

HANDWRITING: *Handwriting Level K*

SCIENCE: We suggest one of the following: *Science for Little Hearts and Hands*; or, if you are doing our science units with older children, kindergarten children can participate and learn much by observing.

HISTORY: We suggest reading history picture books to children if they are first grade or younger. If you are doing our history courses with older children, kindergarteners can participate and learn much by observing.

TYPING: Not needed at this level

EXTRAS & ELECTIVES: *Creative Arts & Crafts Notebook; Drawing Books*

*Optional, but highly recommended.

GRADE 1

(ages 5–7)

LANGUAGE ARTS: *Level 1; My Second Nature Reader**

MATH: *Math 1; Anteater Addition* and Snowy Owl Subtraction games**

HANDWRITING: *Handwriting Level 1*

SCIENCE: We suggest one of the following: *Science for Little Hearts and Hands*; or, if you are doing our science units with older children, first-grade children can participate and learn much by observing.

HISTORY: We suggest reading history picture books to children if they are first grade or younger. If you are doing our history courses with older children, first-grade children can participate and learn much by observing.

TYPING: Not needed at this level

EXTRAS & ELECTIVES: *Creative Arts & Crafts Notebook; Nature Notebook; Birdwatching Notebook; Drawing Books*

SHOPPING CHECKLIST — Everything You Need to Homeschool with The Good and the Beautiful

Summer 2023

Shop Now!

We are here to help in your homeschool journey! Use this shopping checklist to help you easily select courses for your family.

Language Arts

Our full-year language arts courses for preschool through high school thoroughly cover everything needed for teaching these language arts subjects: phonics, reading, literature, writing, spelling, vocabulary, grammar, usage, punctuation, geography, and art history and appreciation.

These courses are slightly advanced compared to public school grade levels. In general, children can begin on grade level unless extra reading help is needed. If you are unsure of which level to select, give your child our Language Arts Placement Test found at goodandbeautiful.com/placement.

Math

Simply Good and Beautiful Math courses closely match public school grade levels. *Math K-3* course sets each come with a course book and math box. *Math 4* and *5* come with a course book, *Mental Math Map Mysteries*, a physical answer key, and digital access to the video lessons. *Math 6* includes a two-part course book, an answer key, and digital access to video lessons.

In most cases, the child's course level matches his or her grade level. Our math uses a spiral teaching method so that previously learned concepts are frequently reviewed. Give our Math Placement Test found at goodandbeautiful.com/placement if you are unsure of where to begin with your child.

Handwriting

Courses range from preschool to Level 7. Cursive instruction begins in Level 3. When in doubt, start on a lower level.

Science

Science for Little Hearts and Hands introduces children in preschool through second grade to the wonders of science.

Our family-style science units average 10-14 lessons each. We recommend families complete 3-5 science units per year. Units can be completed in any order.

New and updated science units are taught family style in a grades 3-8 format. Younger children can still participate in learning along with the family.

History

Our history courses are designed for second grade through high school. We recommend beginning with *History Year 1*. Optional Read-Aloud Book Packs are available for each year of history.

Our *US Constitution and Government* course for grades 4-8 can be completed independently from any of our other history courses.

Extras & Electives

The Good and the Beautiful offers fun, optional extras and electives! Add them in when they work for your family. Choose a few for your child.

Library

Choose a collection of books at or around your child's reading level from The Good and the Beautiful Library and *The Good and the Beautiful Book List* for daily independent reading or family read-aloud time.

Use the Reading Level Placement Test found at goodandbeautiful.com/placement to properly choose independent reading books from our Book List or our Library.

FAMILY-STYLE COURSES

SCIENCE/HEALTH FOR GRADES 3-8

Shop Now!

Choose 3-5 science units per year. Units can be completed in any order. For each science unit ordered, only one course book, Read-Aloud Pack, and extension book are needed per family. All science units are NEW or UPDATED with bound course books and two levels of bound student journals. Order one course book per family and one age-appropriate student journal per child.

Science for Little Hearts and Hands for preschool through second grade is found on page 6.

FAMILY-STYLE COURSES

HISTORY

SEMESTER COURSE

US Constitution and Government is a one-semester course recommended for grades 4–8. It can be completed at any time. Order one course set per family and one journal per student.

The course set includes the course book and Mystery on Constitution Island. The student journal is an integrated element of the course, and each child will need his or her own book. The activity book is an optional book to engage younger learners.

SEMESTER COURSE	COURSE SET	STUDENT JOURNAL	OPTIONAL ACTIVITY BOOK	OPTIONAL ERASABLE COLORED PENS
US CONSTITUTION AND GOVERNMENT (grades 4–8)	<input type="checkbox"/> (one per family)	<input type="checkbox"/> _____ (Quantity) (one per child grades 4–8)	<input type="checkbox"/> _____ (Quantity) (one per child grades 3 and under)	<input type="checkbox"/> _____ (Quantity) (set of 6 colors)

FULL-YEAR COURSES

Our four full-year history courses are designed for grades 2 through high school. These courses are designed to be completed in sequential order beginning with History Year 1, but families can begin with one of the other years. Audio dramatizations and course books do sometimes refer to people or events from a previous year's course. Order one course set and Read-Aloud Book Pack per family.

FOR LITTLES

SCIENCE FOR LITTLE HEARTS AND HANDS

Science for Little Hearts and Hands units are designed for children in preschool through second grade. Each 30-lesson unit includes a parent guide that includes discussion questions, hands-on activities, and access to engaging videos and audio narrations. Each unit also includes a *Big Book of Stories* for you to read and discuss with your child. Complete these units at a pace that is enjoyable for both you and your child.
