

This mental math book correlates with the Simply Good and Beautiful Math 4 Course Book, which directs the child to do a lesson box in this mental math book for each lesson (except for lessons that are assessments).

To complete the mental math, the parent or teacher should hold up the book so that the child sees the Questions page and the parent or teacher sees the Answer Key page (or it can be laid flat with the parent or teacher covering the answers with a paper or sticky note). The child should then complete the lesson box number that correlates to his or her lesson in the Simply Good and Beautiful Math 4 Course Book, giving the answers aloud. As the child gives the answers, the parent or teacher checks the answers and gives any correction needed. Upon completion of the lesson box, both the parent or teacher and student should place a check mark in the box to mark it as completed.

At the end of each page of four or five lesson boxes, the student is directed to place a sticker from page 71 onto a designated space on the map on page 69. At the end of the course, the student will have a completed picture of the map, and as a reward for completing the course, the child is then able to read the "You-Choose" book included in the course: Hayden and the Hidden Village. The map that the child created shows places included in the book.

Students who struggle with a mental math concept should be encouraged to continue through the lesson boxes as several skills will be repeated throughout the book.

Each mental math lesson box is designed to take less than five minutes to complete.
It is most desirable for mental math to be done without the aid of writing anything down. However, if needed, the child may use paper and pencil to help with the problems, with the goal of discontinuing the use of the paper and pencil at some point in the book.

The mental math lesson boxes do not correlate directly with the lessons taught in the Simply Good and Beautiful Math 4 Course Book.

## QUESTIONS

## LESSON 1

COMPLETE

## Add 10 to a Number

Increase the digit in the tens place by l. (The tens place is shown in red.)
$23+10$
$45+10$
$37+10$
$82+10$

## Skip Count

- by 3 s from 30 to 60
- by 25 s from 400 to 500

## Add 10 to a Number

Increase the digit in the tens place by I. (The tens place is shown in red.)
$220+10$
$341+10$
$673+10$
$384+10$

## Skip Count

- by 3 s from 120 to 150
- backward by 25 s from 500 to 400

## Add 9 to a Number

Mentally add IO, and then subtract I from the sum.
$33+9$
$19+9$
$35+9$
$17+9$
$78+9$

## Calendar

Name the months of the year.

## Add 10 to a Number

Increase the digit in the tens place by I.
$347+10$
$222+10$
$119+10$
$147+10$

## Skip Count

- by 3 s from 210 to 240
- backward by 25 s from 625 to 525

## Subtract 10 from a Number

Decrease the digit in the tens place by l.
$24-10$
$45-10$
$37-10$
$16-10$

## Calendar

There are 12 months in a year. How many months are in 2 years? Twenty-four months from January is January. What is 25 months from January?

What is 14 months from January?

After completing Lesson 5, place this piece onto your map on D-3.

## ANSWER KEY

## LESSON 1

## Add 10 to a Number

Increase the digit in the tens place by l. (The tens place is shown in red.)
$23+1033 \quad 45+1055 \quad 37+1047 \quad 82+1092$

## Skip Count

- by 3 s from 30 to $6030,33,36,39,42,45,48,51,54,57,60$
- by 25 s from 400 to $500400,425,450,475,500$

## LESSON 2

## Add 10 to a Number

Increase the digit in the tens place by I. (The tens place is shown in red.)
$220+10230 \quad 341+10351 \quad 673+10683 \quad 384+10394$

## Skip Count

- by 3 s from 120 to 150 I20, $123,126,129,132,135,138,141,144,147,150$
- backward by 25 s from 500 to $400500,475,450,425,400$

## LESSON 3

## Add 9 to a Number

Mentally add IO, and then subtract I from the sum.

```
33+9 42 19+928 35+944 17 +9 26 78 +9 87
```

Calendar
Name the months of the year. January, February, March, April, May, June, July, August, September, October, November, December

## LESSON 4

## Add 10 to a Number

Increase the digit in the tens place by $l$.

```
347+10357 222 + 10 232 119 + 10 129 147 + 10157
```

Skip Count

- by 3 s from 210 to $240210,213,216,219,222,225,228,231,234,237,240$
- backward by 25 s from 625 to 525 625, 600, 575,550, 525

## LESSON 5

## Subtract 10 from a Number

Decrease the digit in the tens place by 1 .
$\begin{array}{lllllllllll}24-10 & 14 & 45-10 & 35 & 37-10 & 27 & 16-10 & 6\end{array}$

## Calendar

There are 12 months in a year. How many months are in 2 years? 24
Twenty-four months from January is January. What is 25 months from January? February What is 14 months from January? March

## NOTES

## QUESTIONS

## LESSON 115

## Change from a Dollar

Determine the change from a dollar for each amount. Count up to the next ten, and then count by tens to 100 .
12 \$
$47 \phi$
39\$
$24 \varnothing$
61 $\$$
81 $\$$

Add Money Amounts
Add $\$ 2.00$, and then subtract 2 cents from the sum.
$\$ 4.15+\$ 1.98 \quad \$ 6.37+\$ 1.98 \quad \$ 9.29+\$ 1.98 \quad \$ 1.98+\$ 2.75$
Skip Count

- by 25 s from 500 to 700
- backward by 25 s from 700 to 500

COMPLETE

## Roman Numerals

State the number for each Roman numeral.
XXXII
XLIV
LXVII
XLII
XCVI
XCIV

## Add 29 to a Number

Mentally add 30 , and then subtract 1 from the sum.
$13+29$
$78+29$
$29+175$
$29+90$

## Factor and Product

Point to each number and state whether it is a factor or product:
Add 4 Numbers

$$
25+150+75+15 \quad 30+40+20+16
$$

$25+25+15+15$
(

State the number for each Roman numeral.
LVII LXXII Liil XXXV LXVI XXXI

## Add 4 Numbers

```
\(25+25+15+50\)
\(25+125+75+15\)
\(25+75+15+50\)
```

## Skip Count

- backward by 3 s from 105 to 90
- by 20 s from 20 to 200

## Story Problems

- Each pair of students needs a jump rope. There are 36 students. How many jump ropes are needed?
- How many inches are in 4 feet 2 inches?

There are no mental math lesson boxes for Lessons 119 and 120 as they are assessments.

## LESSON 115

Change from a Dollar
Determine the change from a dollar for each amount. Count up to the next ten, and then count by tens to 100 .

Add Money Amounts
Add $\$ 2.00$, and then subtract 2 cents from the sum.

| $\$ 4.15+\$ 1.98$ | $\$ 6.37+\$ 1.98$ | $\$ 9.29+\$ 1.98$ | $\$ 1.98+\$ 2.75$ |
| :---: | :---: | :---: | :---: |
| $\$ 6.13$ | $\$ 8.35$ | $\$ 11.27$ | $\$ 4.73$ |

## Skip Count

- by 25 s from 500 to $700500,525,550,575,600,625,650,675,700$
- backward by 25 s from 700 to 500 700, 675, 650, 625, 600, 575, 550, 525, 500

## LESSON 116

Roman Numerals
State the number for each Roman numeral.

```
XXXII 32 XLIV 44 LXVII 67 XLII 42 XCVI 96 XCIV 94
```

Add 29 to a Number
Mentally add 30, and then subtract I from the sum.

## LESSON 117 <br> 

## Roman Numerals

State the number for each Roman numeral.

```
LVII 57 LXXII 72 LIII 53 XXXV 35 LXVI 66 XXXI 31
```

## Add 4 Numbers

$$
25+25+15+50 \quad 25+125+75+15 \quad 25+75+15+50
$$

$240 \quad 165$

## LESSON 118

## Skip Count

- backward by 3s from 105 to 90 105, 102, 99, $96,93,90$
- by 20 s from 20 to $20020,40,60,80,100,120,140,160,180,200$

Story Problems

- Each pair of students needs a jump rope. There are 36 students. How many jump ropes are needed? 18 jump ropes
- How many inches are in 4 feet 2 inches? 50 inches

There are no mental math lesson boxes for Lessons 119 and 120 as they are assessments.

NOTES
mum
$\qquad$
$\qquad$
$\qquad$

Hayden repeated the song again and then smiled proudly. His mother, who had passed away a couple of years ago, had loved learning. She had collected as many books as she could for their small home library. The family had tried to follow her love of learning after she was gone, and Father took up the role of teacher.
One of the cows had come near Hayden, and he spoke to her, as he often spoke to his cows. "It might be lonely up here in the high pasture," he said to the dark tan cow named Buttercup, "but it sure is beautiful."
Buttercup didn't even look up as she feasted on mouthfuls of green, dew-covered grass.

"Hey! ‘Beautiful' is one of my spelling words," said Hayden, still talking to the cow. "Father said to practice my spelling words three times today. Tell me, Buttercup, if I get it right: $\mathrm{b}-\mathrm{e}-\mathrm{a}-\mathrm{u}-\mathrm{t}-\mathrm{i}-\mathrm{f}-\mathrm{u}-\mathrm{l}$. And here it is in syllables: beau - ti - ful. Are you impressed?"
The cow looked up and let out a short moo, looking as if she were not impressed.
"OK, if you think it is easy, you try to spell 'beautiful,' Buttercup. Try breaking it into syllables: beau - ti - ful."
The cow turned, flipped its tail at an annoying fly, and ambled away.
Hayden laughed and rolled onto his stomach. Resting his chin on his hands, he gazed out across the familiar but stunning landscape. His soul soaked in all the wonders around him-a little piece of heaven. He followed the outlines of the jagged mountain peaks, and he viewed the rolling hills carpeted in softly blowing grass and the sweeping fields of pretty yellow and white wildflowers in the valley. He spotted a group of deer by the church in the valley. Hayden had grown so fond of this area since his family had moved here four years ago. Slowly, Hayden turned his gaze far into the distance to admire the pretty Silver Falls cascading majestically off a cliff into Emerald Lake. Today, he also dared to study the thick pine forest in the valley past the waterfall, a sight he usually avoided because it made him so nervous.
"The Forest of Fog," Hayden said aloud. He pondered what he had heard about the forest. No one he knew had ever gone into that forest. Supposedly, there was a fog in the

Hayden brought the cows home just before lunch. He didn't like leaving Chloe home all day since Father was gone. He planned on eating lunch with Chloe and Thomas and then taking Chloe with him back up to the high pasture for the rest of the day.
As he neared the house, Hayden was surprised that Chloe didn't run out to meet him as she normally did when she heard the cowbells tinkling down the little road. After taking care of the cows in a hurry, he burst into the house.
"Chloe!" his voice echoed in the little home. No one was there, but there was a note on the table. It was in Chloe's handwriting:

> Thomas ran away. I'm going to follow him.
> IIll be OK. Don't worry.

Follow him! thought Hayden. That was a terrible idea! Hayden was not annoyed with Chloe; he was frightened for her! An eight-year-old girl should not be out alone. There were snakes and cliffs and- Hayden's imagination went wild. He ran to the stable and found only the brown horse; the white horse was missing. "Oh no!" he cried as he ran a hand through his hair. "What should I do?"

Hayden had not ridden a horse since he had fallen off one last year. He was scared. However, little Chloe's happy face appeared in his mind. What a dear girl with her swinging braids and her rosy cheeks. The siblings had grown so close after their mother's death. Chloe was in danger. "I don't care if I break a bone; I'm going to ride to Farmer Bilxby's. Maybe he can help me. He has helped our family with past emergencies." He quickly collected a loaf of bread, a rope, a pocketknife, and a jug of water. He wrapped the items in a blanket and threw them in a basket on the horse's side. Then he rode off, following the narrow road to Mr. Bilxby's farm with his hair flying in the wind.
Farmer Bilxby was not home, and Hayden saw no sign of Chloe or Thomas. Once again, he found himself not knowing what to do as he tried to collect his thoughts.

## You Choose

- 

If Hayden rides his horse to Abe's home to find help, skip to Part C on page 58 .

OR

If Hayden goes to the church and climbs the bell tower to see if he can see Chloe or Thomas somewhere in the valley, skip to Part E on page 64.
